

```
prior_hessian::Composite  
Dist::ComponentDistAdaptor  
< Dist, meta::EnableIfSubclassT  
< Dist, UnivariateDist > >::rllh  
_from_iter
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is shaded gray and contains a complex C++ code snippet. The right box is white and contains a simplified version of the code snippet. The arrow indicates a transformation or simplification process.

```
prior_hessian::Composite  
Dist::rllh
```
