

```
prior_hessian::Composite  
Dist::ComponentDistAdaptor  
< Dist, meta::EnableIfSubclassT  
< Dist, MultivariateDist > >  
::append_global_lbound
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains a C++ code snippet. The right box has a white background and contains a simplified version of the code snippet. The arrow indicates a transformation or simplification of the code.

```
prior_hessian::Composite  
Dist::global_lbound
