

```
prior_hessian::Composite  
Dist::ComponentDistAdaptor  
< Dist, meta::EnableIfSubclassT  
< Dist, UnivariateDist > >::append_sample
```

A diagram consisting of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is shaded gray and contains a complex C++-like function signature. The right box is white and contains a simplified version of the signature, retaining only the class name and the `sample` method.

```
prior_hessian::Composite  
Dist::sample
```
